

ARYA

Born June 19, 2019

Jessica decided to take the first abortion pill, and she immediately began to cry. Her mother suggested there may be a way to reverse it. **Thankfully, she found Heartbeat's Abortion Pill Rescue Network and rescued Arya from abortion.**

What is Heartbeat's Abortion Pill Rescue Network?

About 40% of all abortions in the U.S. occur through the "abortion pill," or RU-486. As these numbers continue to rise, Heartbeat believes that **no woman should ever feel forced to finish an abortion she regrets.**

Heartbeat's Abortion Pill Rescue Network (APRN) connects women who regret taking the first dose of the abortion pill regimen to a network of medical professionals trained to administer the reversal protocol. She has about 72 hours to change her mind and save her baby.

Together, we can expand Heartbeat's APRN, so she can get help when she needs it.

Heartbeat's APRN uses a proven process to reverse the effects of the first chemical abortion pill. **Heartbeat gives women a last chance to choose life.**

To date, nearly 1,000 babies have been saved.

Together, we can rescue tens of thousands more babies!

TIMING IS CRITICAL

Roughly 12 hours after taking the first abortion pill, Ashley started the Abortion Pill Reversal protocol and found hope. **This mom is so grateful Gavin was saved from abortion!**

APRN Mom

Yes! I want to rescue babies today!

I would like to expand the reach of Heartbeat's APRN:

- \$750 saves 10 babies from chemical abortion
- \$150 saves 2 babies from chemical abortion
- \$75 saves a baby from chemical abortion
